Chairman's Report – 20/04/2026

The chairman would like to thank:

1) All of the residents that helped in our annual village litter pick / ward councillor Simon McCombe for supplying equipment and helping pick up litter too. If you weren't able to make this event and still want to help, every piece of litter picked up and placed in a bin, at any time, helps keep our village looking clean and tidy. Maybe pick up 5 pieces of litter if you get the chance. As you can see, we got quite a hoard!

   We have also had a request from a young person regarding DofE litter picking.

2) Cllr Hannah Colton for arranging to fix the steps leading into Great Ground. The new tree in the recreation ground is doing well.

3) To all of those who have been involved in the planting and maintenance of the Triangle. We have had a lot of positive comments/likes which is lovely to see. We do need to arrange a date for summer planting.

Other points

- The church clock is still chiming the wrong time and will be reset when they have finished installing the new heating system as the electricity keeps needing to be turned off.

- "Millenium Way" has still not been fixed and another accident has been reported. This has been reported to both highways and footpaths now. Simon can you please help get this resolved?

- Bristol Road remains an issue. Simon are you able to help with this?
