Chairman's Report - West Harptree Parish Council - October 2026

Thanks are due to those residents who have weeded/swept up or helped with general maintenance. It would be greatly appreciated if residents could clear weeds outside their properties as this makes a noticeable difference to safety and the appearance of the village.

The bollards have been replaced by one of the large drains on Ridge Lane. Simon, could we have an update on the planned dates / exact drainage works throughout Ridge Lane, as nothing has been done to date and we are about to hit autumn/winter rains. (I think it said 10 days of works scheduled within 10 months after June).

As we go into the autumn all efforts to keep drains unblocked (even just one outside your house) will be very much appreciated.

We need to set a date for autumn planting for the Triangle? I wonder whether it may be an idea to offer some of the Begonia's to local residents to use as house plants rather than throwing them all away?

I am planning to distribute new bus timetables over the next week. Please do your best to use the bus where you can, as we were lucky to keep the service at the last review due to low numbers.

Planning breaches and enforcement continue to be an issue.
